Dear guests,

Welcome to restaurant "Midalidare Vintage"!

Good wine and good food for centuries go hand in hand, leading to a fine dining experience for the senses.

The philosophy of our winery is to produce wines in small quantities with a strong character. For them, we use traditional classic varieties of our own arrays, as the technology is consistent with the current understanding of an ecological product.

All wines in Midalidare Estate are free of preservatives, colorings and sugars. The only thing we have added is a "pinch of love."

For connoisseurs of high-class wines, which are winners of prestigious international awards, our enologist has selected a variety of wines, which it recommends especially for you.

|                     |                            |

## Beer Hills

We are pleased to offer you a product of a small boutique brewery in the town of Perushtitsa. Hills is a malted, unfiltered and unpasteurized wheat beer under Bavarian technology.

|                                                                                                                                     |                            |
|-------------------------------------------------------------------------------------------------------------------------------------|----------------------------|
